

Celebrate the festive season with exciting offers on Toyota’s vehicles

Toyota Motor Philippines brings more cheer to the holiday season with exciting deals and offers across a wide range of vehicles this November!

Pay Low, Pay Light & Cash Savings

Get the Wigo 1.0 G CVT for a downpayment of only PHP 110,250 under the Pay Low Option. This offer provides customers with downpayments as low as 15 percent, along with free first-year insurance, free LTO registration for three years, and no chattel mortgage, with payment terms of up to 60 months.

The same variant is also available for a monthly payment of PHP 6,875 under the Pay Light Option, which offers customers low monthly plans with a 50-percent downpayment and a 60-month amortization period.

Customers who prefer to pay in straight cash can enjoy a PHP 55,000 discount on the Wigo 1.0 G CVT.

Looking for a bigger vehicle for daily use? Consider the Raize 1.2 E CVT, available for a downpayment of PHP 127,050 under the Pay Low Option, or a monthly payment of PHP 8,322 under the Pay Light Option. The G CVT variant also comes with a PHP 45,000 straight-cash discount.

For happier drives with the family, the 7-seater Avanza 1.3 E CVT can be yours with a downpayment of PHP 152,400 or a monthly payment of PHP 9,852 under the Pay Light Option. Straight-cash buyers receive a PHP 60,000 discount.

Starting a business this holiday season? Save up to PHP 200,000 on the Tamaraw Dropside Diesel A/T, Aluminum Cargo DSL, and Gas M/T when paid in full straight cash. Alternatively, get the 2.0 Aluminum Car-

go Gas M/T for just PHP 122,700 downpayment, or PHP 6,816 monthly under the Pay Light Option.

Exciting hybrid offers are also available during this holiday season!

- Corolla Cross 1.8 V HEV – PHP 15,295/month under Pay Light
- Yaris Cross 1.5 S HEV CVT – PHP 13,416/month under Pay Light
- Zenix 2.0 Q HEV CVT – Save PHP 230,000 via Straight Cash
- RAV4 2.5 XLE HEV CVT – Save PHP 300,000 via Straight Cash
- Camry V HEV – Save PHP 200,000 via Straight Cash

Free Periodic Maintenance for Brand-new vehicles

With Toyota Choice, Toyota Motor Philippines ensures that customers are supported at every step of their journey during the festive season, even during vehicle maintenance.

Toyota is offering FREE Periodic Maintenance Service (PMS) up to

the 20,000KM check-up for all brand-new Raize, Veloz, and select variants of the Vios, Fortuner, Hilux, Innova, and Avanza, provided they are purchased from an authorized Toyota dealership within the promo period.

Customers may avail of the free PMS within 36 months from the release date of their vehicle, as long as they do not skip any maintenance between the 1,000KM and 20,000KM check-ups.

All variants of the Tamaraw sold and released during the promo period are also eligible for a Service Discount Voucher worth PHP 1,200 (VAT inclusive), applicable to nine PMS intervals from the 1,000KM to 40,000KM check-ups. Customers may redeem the PHP 1,200 Service Discount Voucher within 48 months from the vehicle's release date.

Customers of a brand-new Rush, Corolla Altis, and Wigo sold and

released during the promo period are also entitled to the PHP 1,200 Service Discount Voucher. This voucher, which may be redeemed within 36 months from the vehicle's release date, is applicable to seven PMS intervals from the 1,000KM to 30,000KM check-ups.

Trade-in Rebate and 0% Interest

Get a PHP 25,000 rebate when you trade in your old vehicle for a brand-new Vios, Innova, Raize, Fortuner, Avanza and more!

Alternatively, get a PHP 30,000 rebate is also available for those who will trade in their old vehicle for a brand-new Tamaraw, Corolla Cross HEV, Yaris Cross HEV and Zenix HEV.

Additionally, you can get 0% interest when you buy a brand-new HEV variant of the Corolla Cross, Yaris Cross and Zenix with downpayment options ranging from 15-50%.

Free 1-Year Insurance

Customers who bought selected variants of the Vios, Wigo, Avanza, Veloz, Innova, Fortuner and Hilux are also entitled to a free one-year comprehensive insurance provided by Toyota Insure when purchased during the promo period.

The free one-year insurance covers 24/7 personal accident, passenger auto personal accident, three-year CPTL, own damage (OD), loss/theft, excess bodily injury (EBI), property damage (PD), acts of nature (AON), and includes emergency roadside assistance.

Customers who bought a new Toyota vehicle comes with a 3-year or 100,000-kilometer Manufacturer Warranty, whichever comes first. In addition, Toyota vehicles sold from January 1, 2025, onwards may be eligible for an Additional 2-Year Service Loyalty Warranty, extending the coverage by up to 40,000 kilometers beyond the standard Manufacturer Warranty.

Experience the 5-Star Life: MG Motor Philippines Unveils the All-New MG HS Hybrid+ — Sophisticated, Safe, and Electrified

MG Motor Philippines proudly introduces the All-New MG HS Hybrid+, a premium electrified SUV designed to deliver exceptional power, outstanding efficiency, and world-class safety. Crafted for Filipinos who demand more from their everyday drive, the HS Hybrid+ embodies MG's intention to allow customers to experience the 5-Star Life.

Recently nominated for European Car of the Year 2025, the HS Hybrid+ represents MG's bold step toward the future of mobility, combining modern design, refined comfort, and advanced technology in a premium package. At its heart lies MG's advanced 1.5-liter turbocharged hybrid dedicated engine paired with a high-output electric motor.

Together, they produce a maximum output of 224 PS (165 kW) and 340 Nm of torque, delivering smooth acceleration and effortless performance across any road. The HS Hybrid+ achieves an impressive fuel efficiency of 21.55 km/L, as verified by the Automobile Association Philippines (AAP). It offers a driving range of over 1,000 kilometers, making it ideal for both city commutes and long-distance journeys.

Its 1.83 kWh hybrid battery, coupled with MG's intelligent 2-speed Dedicated Hybrid Transmission, allows the vehicle to seamlessly shift between all-electric, hybrid, and gasoline power, while eight intelligently managed propulsion modes continuously optimize performance and fuel efficiency. Designed for optimal performance, efficiency, and convenience, the MG Hybrid+ system requires no charging for a hassle-free, enjoyable drive.

The All-New HS Hybrid+ further exemplifies the meaning of a 5-star life with its double 5-Star Safety Ratings from both EURO NCAP and ANCAP. Its safety credentials are further reinforced by MG Pilot, the brand's intelligent suite of driver assistance technologies, which includes adaptive cruise control, traffic jam assist, autonomous emergency braking, forward collision warning, lane keep assist, blind spot detection, rear cross traffic alert and braking, and a clear 360-degree camera.

These systems work together to provide reassurance, awareness, and confidence in every driving situation, from tight city streets and parking lots to long highway journeys. Complementing MG Pilot are driver and front passenger, side, and curtain airbags, along with an autobrake hold, anti-lock braking, electronic brakeforce distribution, cornering brake control, traction control, vehicle dynamics control, and active rollover protection, offering comprehensive protection for all occupants.

The HS Hybrid+ elevates the daily commute with first-class refinement. Its MacPherson Strut front suspension and multi-link rear suspension are engineered to deliver a smooth

and comfortable ride. Inside, the cabin features a dual 12.3-inch digital instrument panel and touchscreen infotainment system supporting Apple CarPlay and Android Auto, while wireless charging, dual-zone automatic climate control with an air purifier, and leather seating with six-way electric adjustment, four-way lumbar support, and multi-position memory for the driver seat enhance riding comfort and convenience.

A panoramic sunroof, hands-free power tailgate, and reverse auto-tilting mirrors further enrich the driving experience, while the exterior's Digital Matrix LED lighting, roof rail with 75kg capacity, and 19-inch black-painted alloy wheels give the HS Hybrid+ a sophisticated and striking presence on the road. Every material, technology, and design choice contributes to a smooth, quiet, and premium experience that feels unmistakably MG.

“The MG HS Hybrid+ is more than just a new model — it is our statement of intent for the future of mobility in the Philippines,” said Felix Jiang, President of MG Motor Philippines. “It brings together modern design, world-class safety, and next-generation hybrid technology in one premium package – a vehicle designed to let Filipino motorists truly experience a 5-star life.”

The All-New MG HS Hybrid+ is available in Black Pearl, Lunar Gray, Pearl White, Champagne Silver, and Diamond Red, with a retail price of Php 1,398,888 and an introductory offer of Php 1,388,888 for a limited period. The HS Hybrid+ is now available for viewing and test drives at all authorized MG dealerships nationwide.

Anticipation builds for the All-New Toyota bZ4X BEV

First all-electric Toyota in the country to arrive in December

The All-New bZ4X, Toyota Motor Philippines (TMP)'s first-ever Battery Electric Vehicle (BEV) under the Toyota brand, is capturing the interest of several customers who have been anticipating the official availability of the vehicle in the country.

According to TMP President Masando Hashimoto, TMP dealers who are set to offer the bZ4X have been receiving inquiries since TMP opened the reservation period last November 7.

“We are encouraged by the positive reception by the public to the news of bZ4X local release,” said Hashimoto. “Understandably, one of the most asked questions is the average range of the EV. While actual consumption and range will vary based on conditions and driving habits, we were able to register 570 km of EV range. This is based on internationally accepted Fuel Consumption Test Protocol under UN Regulations No. 101.”

The Philippines will be getting the Japan-sourced bZ4X.

Currently, TMP has the widest selection of hybrid and battery electric models in the country, with a mix of electrified sedans, MPVs, SUVs, and vans under its Toyota and Lexus brands. Lexus introduced TMP's first BEV, the Lexus RZ, in 2023.

Through its multi-pathway approach that provides more electrified options based on varied customer needs and readiness, Toyota is committed to enabling customers to be part of its strong carbon neutrality push.

The All-New Toyota bZ4X, an all-wheel drive (AWD) BEV SUV, is powered by a 73.11 kWh Lithium-ion battery with a max output of 343 PS and max torque of 338 Nm.

Those looking to make the fearless step forward toward electrification may already reserve the bZ4X at <https://www.toyota.com.ph/reservebZ4x>. They may also inquire directly at any of the Toyota dealerships offering the bZ4X: Toyota Alabang, Toyota Commonwealth, Toyota Global City, Toyota Maboloc Cebu, Toyota Makati, Toyota Manila Bay, Toyota Mandaue South, Toyota North EDSA, Toyota Pasig, Toyota Quezon Avenue, Toyota San Fernando, and Toyota Santa Rosa.

With the bZ4X, Toyota empowers customers to actively reduce their carbon footprint without compromising on style and comfort. By choosing a Toyota, they enjoy worry-free vehicle ownership so they can focus on the drive.
